We are looking for 30 motivated middle school and high school science teachers interested in field-testing classroom activities about Mars developed in Tucson at the University of Arizona Lunar and Planetary Laboratory. Please return the form below to reserve your spot at our kick-off training workshop in early August described below. During the Fall 2004 semester, you will be asked to field-test at least two activities demonstrated at the workshop. Your input and feedback regarding both the workshop and activities will provide a key component to our submission of these activities for educational approval and distribution by the NASA Office of Space Sciences.

Workshop Date: Thursday, July 29, 2004
Time: 8:30AM – 4:30PM
Location: Kuiper Space Sciences Building, University of Arizona Campus
Teachers attending workshop will receive $120 and Continuing Education Credit
